FOR BOYS WHO GO

PROGRAM COMPLETE FOR PUBLIC FAREWELL TOMORROW.

DINNER AT M. E. CHURCH

At 2 O'clock There Will Be Addresses and Music at Christian Church—Parade to Depot.

Tomorrow afternoon there will be leave taking and goodbyes for the third contingent of young men who go from Nodaway county to do their "bit" for the cause of democracy, seventy-seven having been ordered to entrain for Camp Funston. As with the others who have gone there will be prayers and blessings for their safety and comfort, following a program outlined by the members of the Ministerial Alliance and which will be carried out by the various committees.

At the First Christian church there will be addresses and music, a section of seats being reserved for the men who leave. The complete program which will begin at 2 o'clock is as follows:

Rev. Gilbert S. Cox, president Ministerial Alliance, presiding.
Music—Band.
Invocation—Rev. T. H. Wiles.
Song—America.
Introduction of Boys to Audience—Dr. S. A. Coile.
Presentation of Kits.
Song—Star Spangled Banner.
Prayer.
Address—Rev. Henry F. Niemann.
Address—Rev. Samuel D. Harkness, of Kansas City.
Song—"God be With You 'Till We Meet Again."
Benediction.
Recessional for Parade.

The dinner will be served the men at the First M. E. church, beginning at twelve o'clock, and will be under the direction of the presidents of the different Ladies' Aid societies. The lunch that will be given each man will be prepared at the Presbyterian church and will be distributed at the depot before the men entrain.

The parade committee, Mayor A. S. Robey, Noah Sipes and W. E. Goforth, who were named to arrange for an escort for the boys who leave for Camp Funston tomorrow afternoon, have outlined the following program and rules to be observed:

The parade will form at 4 p. m., at the First Christian church and will march east to the Burlington depot in the following order:

Old soldiers, Maryville band, drafted men, all ministers in attendance, relatives of men who leave, county and city officials, Normal school faculty and students, all other citizens in attendance.

The ladies who will distribute the boxes containing lunches will form in line on East Third street immediately west of the station where the parade will be brought to a halt long enough for each man in the quota to receive his box or basket, together with such other things as will be provided for them.

It is especially requested by the committee that all who go to the station be considerate and allow relatives, sweethearts and friends of the men to have first place and the opportunity to give them a last goodbye unmolested.

Automobile drivers are asked to refrain from crossing the line of march and also to keep off Third street as far as possible in order that the free use of the street may be had for the parade.

Miss L. Gladys Null of near Pickering, a daughter of Mr. and Mrs. O. G. Null, enrolled Monday in the stenographic department of the Chillicothe Business College.

Miss Della McMullin of Pickering and Clem Fine of Braddyville, Iowa, were married Saturday morning in St. Joseph.

FIRST PICTURE A SUCCESS

Capacity House at Christian Church Last Night Enjoyed "The Vicar of Wakefield."

An audience that filled the Christian church to capacity last night saw and enjoyed "The Vicar of Wakefield," with the famous actor, Frederick Warde, in the title role. The story as told in the films loses nothing of its charm and interest but is rather accentuated by the moving characters and portrayal of the scenes of the days in which it was written.

The first time moving pictures have ever been shown in a Maryville church the performance, or rather the showing of the pictures, was as smooth as though it was a nightly occurrence. The picture was unusually clear and distinct, due in a large measure to the splendid screen that has been built and which will be used permanently in the church. The music accompainiment was played by Miss Vera Sayler, who is an expert in interpreting it to fit the action in the picture.

The next number in the course of twelve pictures has not yet been announced.

LIEUT. BRANIGER WRITES

Maryville Dentist, Now at Camp Des Moines Pleased With His Work in the Army.

Dr. Earl Braniger, now a lieutenant in the dental division of the medical corps of the U. S. Army, stationed at Fort Des Moines, in a letter to his parents, Mr. and Mrs. R. S. Braniger, says that he is greatly pleased with his work and the experience of being in the service of Uncle Sam. Lieut. Braniger says that so far as he is able to learn he is permanently stationed at Camp Des Moines, but, as is the case with army men, is prepared to go elsewhere on instant notice. A part of his duties consist of several lectures each week to the men on the proper care of the teeth and mouth, he having made a special study of this branch of dentistry.

Lieut. Braniger intimates in his letters that he will in all probability be given promotion soon.

TWO AWAIT BOARD ACTION

Ernest Ulmer and Earl Claycomb Will Not Go With the Third Contingent Tomorrow Afternoon.

The local draft board received word this morning that the case of Ernest Ulmer, who was scheduled to leave tomorrow with the third contingent, had been re-opened by the district board. Ulmer will not have to go until final action is taken.

Earl Claycomb who was examined at Topeka, Kan., and certified back to the board here, will not go with the third contingent tomorrow as his case also has been taken up by the district board.

Albert G. Craig of this city has been added to the third contingent which leaves tomorrow.

The board is one short today of the full quota of 40 per cent. It is expected that the full quota of 77 men will leave tomorrow afternoon.

ANNOUNCE LECTURE SERIES.

Men's Class at First M. E. Church to Hear of the Prophets.

A series of lectures to the Brotherhood Bible class of the First M. E. church is announced by Rev. Gilbert S. Cox, the first lecture to be given Sunday, October 7. The lectures will be on the Old Testament prophets and an application of their teachings to present day social and religious conditions.

The lectures in the series are:

Amos—"The Prophet of the Moral Law."
Hosea—"The Prophet of Love."
Isaiah—"The Prophet of Faith."
Jeremiah—"The Prophet of Personal Piety."
Ezekiel—"The Prophet of Individualism."
Second Isaiah—"The Prophet of Universalism."

Wm. H. Findley, of Graham, in Same Hospital Unit With First American Officer to Meet Death.

In a letter to his father, Dr. W. J. Findley, of Graham, Wm. M. Findley, with the Harvard Hospital Unit in France tells of the bombing of the hospital by German airmen, and with having witnessed the killing of Lieut. Fitzsimmons, the young Kansas City surgeon, the first American army officer to be killed in the war. Young Findley, who enlisted with an English regiment before the United States entered the war, writes as follows:

Harvard Surgical Unit,
General Hospital 22,
B. F. F. France,
Sept. 3, 1917.

Dear Dad and June:—

I suppose that by the time you receive this you will have read about the Hun bombing of hospitals. I have withheld saying anything before because I thought the censors would hold it up. I want to make it clear to you that there have been no casualties of any sort in our hospital that was not made clear in the newspapers, and I was much put out when I saw they had published just enough to worry you unnecessarily.

However, you may believe most of what you are likely to hear of the Huns bombing hospitals or attempting to. I don't think exaggeration of this feature is allowed in English newspapers, but I know that they are likely to get hospitals mixed and thus mislead you. You must remember that if anything at all happens to me you will hear by cable. Also if worried at any time you may cable Herbert H. White, University Press, Cambridge, Mass., and he will let you know. I shall tell you the truth and as near the whole truth as possible at all times so don't be worried.

Hospitals on three sides of us were bombed and one Kansas City Surgeon within about sixty yards of me was killed. He was the surgeon mentioned by the newspapers as an American. (The man referred to was Lieut. Fitzsimmons). Two bombs fell within about four feet of him. He was killed instantly. Pieces of the bombs flew around me and into the building behind which a group of us were standing. I happened to be the first one to get to him.

I saw three bombs in line and at intervals of a few seconds, each one nearer to us than the preceding one. Then I heard the hiss of a familiar

SCHOOL CHILDREN PARADE

Joined With W. C. T. U. at Parnell in Observance of Frances E. Willard Day.

Frances E. Willard Day was appropriately observed by the W. C. T. U. and the centralized school of Parnell, on Friday, September 28.

The children lined up at the school promptly at 2 o'clock and marched through the main streets with banners floating and giving school and temperance yells. Arriving at the church a program was given by the schools, after which Rev. A. R. Hunt, of Savannah, gave a talk on "Temperance." A song by Mr. Lunsford was a feature of the afternoon program.

A large and appreciative audience was in attendance. The success of this meeting was greatly due to the co-operative spirit given by the schools.

The out-of-town schools, who attended with patrons, teachers and pupils in a body were: Mt. Everett, Miller, Champion Hill, Elm Grove, Bunker Hill and Logan.

CASH PRIZES, $697

LIBERAL INDUCEMENTS TO EXHIBITORS AT CORN SHOW.

"WAR BREAD" CONTEST

From Present Indications This Year's Exhibit Will Outclass All Others—Schools Interested.

A total of $697.00 in cash prizes will be awarded at the annual exhibit of the Nodaway County Agricultural and Domestic Science Ass'n to be held November 1 to 3, at the Normal school building. In addition to the awards that will be confined to exhibitors from the county, there are corn classes open to the entire state with prizes aggregating $165.00. While exhibits of corn come in for the largest share of prizes there are inducements worth while for exhibitors in any of the classes embracing garden and farm produce, fruits, grains and domestic science.

A feature of the exhibit this year will be a contest in making "war bread," the requirement being that a portion of some other flour, meal or vegetable be substituted for a portion of wheat flour.

Another interesting class in which competition will be keen is the "largest acre yield of corn," open to boys and girls from ten to twenty years of age. $100.00 will be awarded in this class. Good prizes are also offered in the domestic science classes and for fruit exhibits.

P. G. Holden, of Chicago, considered the greatest corn expert in the United States will be a visitor during the corn show and will give several lectures.

From present indications the exhibit this year promises to outclass any exhibit of previous years, the boys and girls in most of the rural schools having announced their intention of entering one or more classes. Many of the schools will hold annual fairs of their own before the "big show," and exhibits will be brought here for entry. With the exception of sewing, all the exhibits may become the property of the association.

The executive committee members will be glad to give further information.

It is composed of: Bert Cooper, manager; E. E. Williams, Sec. and treasurer; Joseph Jackson, Jr., E. M. Claypool, Miss Hettie Anthony, Prof. C. H. Belting, Jas. B. Robinson, G. L. Wilfley.

CHURCHES IN CONVENTION

A. McLean, of Cincinnati, Will Address Burlington Junction Meeting Tonight.

The Christian Woman's Board of Missions had charge of the morning's program of the Seventh Missouri District convention of the Christian churches, which is in session at Burlington Junction, while the Seventh District Board of the Missouri Mission has charge of the afternoon program.

The feature of the meeting will be the address given tonight by A. McLean of Cincinnati, O.

The women of the church served both dinner and supper to the 100 delegates in attendance.

Tomorrow's program is as follows:

Wednesday morning—Devotional; conference, "Carrying the Seventh District program into the Local Churches of all the Counties Through the County Organization," led by George L. Bush, Carrollton; reports of committees; address, "The Possibilities of the Seventh District," led by J. Roberts, Trenton; adjournment.

START ON BIG LOAN

CAMPAIGN FOR SECOND LIBERTY ISSUE IS UNDER WAY.

NODAWAY CO. FELL SHORT

Apportionment Here Not Subscribed On First Loan — May Form A Worker's Organization.

The big drive for the second issue of Liberty Loan Bonds is on throughout the country today, the United States government asking the loan of $3,000,000,000 with which to prosecute the war. The First National Bank of Maryville is in receipt of literature and posters to aid in the campaign and Jos. Jackson, Jr., cashier, plans to give it wide distribution all over the county.

In the first Liberty Bond Loan Maryville and Nodaway county fell short of subscribing its apportionment and it is hoped to make up the deficiency in the second call.

When midnight of October 27 arrives the people of western Missouri, Kansas, Colorado, Nebraska, Wyoming, Oklahoma and New Mexico, these states comprising the Tenth Federal Reserve Bank District will be expected to have subscribed 200 million dollars.

In the larger cities men in charge have organized, just as they would for a great political campaign, except that bankers and business men instead of politicians have been named as chairmen.

For three weeks shipments of posters, press notices, application blanks have been going out day and night to banks and chairmen over the district. Tons of such literature have been sent out for distribution. When the last local committee has completed its preliminary publicity work every man, woman and child in the Tenth District will know about the second Liberty Loan campaign.

Posters, attractive and impelling, will appear on every billboard, every barn, fence, telephone post and other public places, where the owner will permit. Imitation bronze tablets will show from every public window, providing the owner has sufficient patriotism to display them.

Postmaster General Burleson has ordered that between October 1 and 27 all postage stamps be canceled with a stamp bearing the legend:

He Likes Sweater Set.

Miss Mahala Saville, a Normal student, who is making her home with Mrs. S. A. Helwig, received a letter from her brother, Chauncey Saville, who enlisted in the United States Navy several months ago, and is located at Hughley, Mass., saying he has received a Red Cross sweater set, and thinks them worth their weight in gold to the soldiers and sailors.

Saville has attended the Maryville Normal several terms and is well known here.

Mr. and Mrs. S. C. Vogan and two grandsons of Sterling, Neb., arrived in Skidmore Sunday for a visit with relatives.

Miss Sophia Hull of St. Joseph arrived in Maryville Saturday night for a visit with Mr. and Mrs. Fred Hull and Miss Emma Hull.

SUSPEND LEGAL BUSINESS TOMORROW FOR DRAFTED MEN.

CASE TAKEN FROM JURY

G. F. Davis Sues J. M. and Grover Dinsmore for $700—Verdict For E. C. Culp in Wages Suit.

The note suit of George F. Davis against J. M. Dinsmore and Grover Dinsmore is being heard in circuit court today. It is a suit on a note for $700 which was alleged to have been given as commission on a sale of a farm which afterwards was not consummated, Davis getting the note from the real estate agent. The jury that is hearing the case is composed of C. S. Johnson, James Miller, Lee Teson, Jonas Brown, Lee Carpenter, Frank Morin, C. C. Nelson, E. K. Bailey, J. F. McManus, Earl Heflin, W. W. Alexander, Brice Wilson.

The case was taken from the jury this afternoon and will be taken up by the court later on this term.

No session of court will be held tomorrow on account of the reception to be given to the boys of the third contingent.

The docket was gone over by Judge Dawson this afternoon.

John J. Spicer was gien a decree of divorce from Emma Spicer.

Nathan L. Pierce against Salem Pierce, note, judgment for plaintiff for $144.20.

Frank Barmann against Tom Brady note and account, settled and dismissed.

Judge Dawson disqualified in the case of the State against French Brown. This case was also continued.

The jury found for E. C. Culp in the case in which Wilbert Reese sued Culp for wages for twelve years, from 1902 to 1914, the claim amounting to $3,600.

John A. Kerr vs. G. W. Crossan, note, defendant defaults and judgment given for plaintiff.

Jonas Campbell vs. Mary E. Hollinsbe, damages, defendant files demurrer to petition, demurrer sustained. Plaintiff has leave to file amended petition. The same entry was made in the case of James Campbell against Charles E. Hollinsbe for damages.

A suit filed today was by Stalling & Cook against Jacob M. Everhart and May Everhart. It was an attachment suit on an account.

Favor 45 Cent Cotton.

Special to The Democrat-Forum.

New Orleans, Oct. 2.— Recommendation that the price of cotton be fixed at forty-five cents a pound, will be submitted at the annual cotton conference which opened here today. Delegates from fourteen states are in attendance and a majority reported in favor of forty-five cent cotton.

A total of 209,000 men fell in the Franco-Prussian War.

LONDON IN TERROR

THE GERMAN AIR FRIGHTFULNESS REACHES ACUTE STAGE.

AIRMEN BOMBARD CITY

The Battle Along the Flanders Front Still Rages, the War Office Reporting German Loss Severe.

Special to The Democrat-Forum.

London, Oct. 2.—The frightfulness of German air raids has reached its most acute stage in last night's raid over London and the counties that lie southeast. More than twenty German machines of the Gotha type took active part it is estimated. Considerable damage was done, not only by bombs dropped, but from the rain of shrapnel from high angle guns which fell back upon the city. The latest raid is the third in six days and brings renewals of the demand by the press for reprisals and it is expected the matter will be taken up in the House of Commons.

Ten persons were killed in last night's raid, officials announced today, bringing the total deaths from air raids to 864.

London, Oct. 2.—Heavy fighting raged over the section west of Flanders during the night, the Germans directing savage counter attacks at numerous points. All the assaults were repulsed, the war office announced. The efforts of the Germans to recapture Zonnebruke and under the intense gun fire of the British the Germans were rolled back, leaving great mounds of dead and wounded behind.

Along the Ypres Menin road the Germans launched five powerful attacks, using immense forces of men, but were as often repulsed. In the Polygon Wood district there was especially violent attacks on both sides. The official statement dwelt on the severity of the German losses.

COAL PRICES MUST DROP

Garfield Warns Retailers There Must Be No Attempt to Evade the Reduction Order.

Special to The Democrat-Forum.

Washington, Oct. 2.—Prices of coal must drop. Administrator Garfield at a meeting here today scored the state fuel administration and in giving the order he warned that there must be no attempts on the part of retailers to evade the order reducing prices. Figures were presented by Dr. Garfield showing that the margin of profit demanded by retailers was exhorbitant.

Evidence that the prices the government had fixed for coal from the Southern Illinois field, from which Missouri gets much of its coal, were entirely too high; that the coal companies had doctored figures and books to get favorable price; that the people of Missouri were not getting any beneficial results thus far from the government's attempt to regulate coal, was laid before Doctor Garfield, national coal administrator, yesterday afternoon by Attorney General Frank McAllister of Missouri.

SO OBJECTORS MAY SERVE

Provost Marshal Says They Will Not Be Called On To Take Human Life.

Special to The Democrat-Forum.

Washington, Oct. 2.—Conscientious objectors can be assigned to any branch of the military service which does not entail the actual effort to take life, Provost Marshal General Crowder has decided. The decision was given in a lengthy opinion written to guide President Wilson in determining the status of all who have scruples against war.

FAN'S OPINION OF SERIES

Maryville Man Who Saw Both Teams in Action Believes Sox Will Be Winners.

Now that the two teams representing the National and American leagues are to go to bat in the World's series games, naturally local baseball fans are wondering what the outcome of the series will be. Like baseball fans in every section of the country, if they only knew how the series would end, they would bet their heads off. But no one can tell. That is the greatest of sports, because it is played on the square. A Maryville man who saw both teams in action this season is of the opinion that the Sox will take the series, although it will likely take six games to do the trick. Probably two more evenly matched teams ever played in this big annual event than will be these two teams.

Comparing the outfields of the two teams and they are about equal. There are star outfielders on both teams. This is true with the infields on both teams. But here is where the Sox have the edge—they are stronger in the pitching department and in Schalk they have the greatest catcher in either league. That is what counts in a World's series. Having a heady catcher, who knows the game will do much to steady a team and it is this little man Schalk who has put a lot of "pep" in the Sox crowd this year. In pitchers the Sox have Eddie Cicotte, leading pitcher of the American league this season. With Cicotte will be Russell, Faber and Danforth all first string pitchers.

New York has Gibson and McCarty for receivers and they are good ones, but they are not in Schalk's class. Of their first string hurlers the Giants have Benton, perhaps the best hurler of the Giant flingers. Then there is Schupp, Perrett and Sallee, which makes quite a nifty crowd of pitchers. But Chicago has a wrecking gang of hitters in Collins, Jackson, Felsh, Schalk and others and hitting is going to win this series. This may be a bad guess—time alone will tell.

A WOMANLESS CITY

60,000 MEN AT CAMP FUNSTON MUST DARN OWN SOCKS.

BAR FEMALE VISITORS

But A Rest Room Will Be Built Outside Camp Where They May Go —Athletic Training.

Special to The Democrat-Forum.

Camp Funston, Kan., Oct. 1.—A city of 60,000 men without a single woman in it or near it. That's what Camp Funston will be.

Women won't be allowed in the camp even as visitors according to headquarters' plans. From darning socks to operating switchboards, everything will be done by men.

It is planned to build a rest room for the Y. W. C. A. just outside the regulation camp limits. Here women visitors may meet their soldier friends but they will not be allowed on the reservation.

It is the desire of Maj. Gen. Leonard Wood, in command of Camp Funston, national army cantonment, to have every man at the camp trained physically so that he will have the desire to meet the enemy in physical contest, according to a statement made by Dr. Paul Whithington, who recently outlined his plans for athletic training at the camp before the officers who will represent their respective units in athletic training. Dr. Whithington will have charge of athletics at Camp Funston.

"Nothing so strongly builds up confidence as athletic sports," said Dr. Whithington. "In October and November there will be football games for the men, both Rugby and soccer. In addition there will be cross country running and some baseball. Later there will be boxing, basketball, and wrestling.

STANBERRY COMES FRIDAY

M. H. S. Football Team Shows Up In Good Form — Believe They Will Redeem Defeats.

Season tickets for the football games to be played by the Maryville High school team went on sale today and the outlook for the season is a good one. The first game will be played on Friday against Stanberry, and remembering the two defeats of last year, the locals will be on their toes from the time the bell rings. The line-up for the game will be made from the following men; Center, McPherron and King; right guard, Lawson; right tackle, Lyle; right end, Egley and Fisher; left guard, French; left tackle, Auten; left end, Kemp and Miller; left half back, Masters, J. Price; right half back, Wray; fullback, Pierpoint and Pickens. Six of the above number played in games last year.

The first football game for the High school in twelve years was played last year with Stanberry on the latter's grounds. Maryville's men were new and inexperienced, and with the odds against them, were defeated. In the second game with Stanberry there was much improvement shown, although the score ended in Stanberry's favor. In practice the locals are showing up in good form and not a man in the squad but believes that Stanberry is in for a good trimming.

THE GREAT DIVIDE.

The woman in the prime of life need not dread to meet the loss of her youth when growing elderly. While some charms diminisa, others should replace them—charms of experience, cultivation, wisdom. The great physical changes met between the fortieth and fiftieth year are indeed serious, and are not always well borne. In the strain of modern life, few women are in condition to meet these changes without some apprehension of deranged health. But with the excellent help of Lydia E. Pinkham's Vegetable Compound, that old, trustworthy woman's medicine, a woman may confidently expect to enter later life as well and robust as ever.

More than 250 persons attended a joint picnic of farm clubs near Lathrop last week. Two clubs, the Clinton Center and Prairie Dell community clubs, both having been organized about one year, thus celebrated their first birthday. A farm product show, a picnic dinner, a program of talks and a day of rest and companionship, says the Optimist, made this a notable event.

Marriage Licenses.

The following have been issued marriage licenses: Ernest C. West and Miss Olive Belle Thompson, both of Hopkins.

Twenty-five rattlesnakes, all rolled and tangled together, were found under an old log north of Fillmore last week by Hosea Burns and were quickly killed by him and his three sons.

Home Cookery

Meat Turnovers.

Chop the meat. If the quantity on hand is small mix with it leftover potato or rice. Season with salt, pepper, onion, etc. Place filling on circular pieces of biscuit dough about the size of a saucer. Fold over the dough and crimp edges together. Bake for about one-half hour in a hot oven. Serve with brown sauce.

Peanut Soup

Heat one pint of milk until lukewarm. Add two rounded tablespoonfuls of peanut butter mixed to a smooth paste with a little of the milk. Salt to taste. Thicken with one teaspoonful of butter or savory fat mixed with one tablespoonful of flour. Bring almost to the boiling point and serve.

Mock Duck.

On a round steak cut thin place a stuffing of breadcrumbs well seasoned with chopped onions, butter or other fat, salt, pepper and flavorings such as sage, celery seed, etc., if desired. Roll the steak around the stuffing and tie in several places with a string. If the steak is tough, steam or stew the roll until tender before roasting in the oven.

French Toast.

Beat up together one egg, one cupful of skim or whole milk and salt to taste. Place a small quantity of butter, bacon fat or other suitable fat in a broad bottom frying pan. Dip slices of stale bread into the egg and milk mixture until they are thoroughly moist and fry on both sides until a golden brown. Serve hot with or without sirup.

Cheese and Greens Roll.

Cook two quarts of spinach, Swiss chard or other greens. Drain and dress with one tablespoonful of butter. Chop and add one cupful of grated cheese and breadcrumbs enough to make a mixture sufficiently stiff to form into a roll. Place in an oblong pan and cook in a moderate oven for twenty minutes. When cold the mixture may be sliced in one-half inch pieces and served on lettuce leaves with salad dressing.

Meat and Breadcrumb Cakes.

To four parts of chopped or ground meat add one part soaked breadcrumbs, a small quantity of chopped onion and salt and pepper to taste. Mix and form into small round cakes. Brown the cakes in butter or other fat, turning them.

Save Simple Remedies For Sickness at Home

We are plunged into that horrible condition called war. Among the many hardships that the people will have to bear are those relating to the care of the sick at home, writes Dr. F. W. St. John in the Farm Journal. The army and navy will draw heavily upon the active members of the medical profession, as well as upon all medical and surgical supplies.

The price of medicines and dressings which are now abnormally high will continue to soar, and the doctor should be prepared, as far as possible, to care for those who are producing the means of warfare as well as the food and clothing.

I would suggest that during the season every one gather such simple remedies as boneset, wormwood, sage, catnip, etc., as they are all useful in the home. Save all the old linen that is not needed for others to be used in dressing wounds. Keep on hand a liberal supply of ground mustard, Epsom salts, castor oil, etc., as they will certainly be used in place of the more expensive preparations.

The Ravenwood Gazette wants to know what it is that makes you want to yell something at the fellow who is carrying a watermelon? Usually it is in expectancy that he will drop it.

Another meanest man has been found. A Barnard parent says he gives his boy but a penny at a time to encourage thrift, knowing he will have to save five before he can buy a movie ticket.

The champion woman food conserver lives at Pickering. The Pick-ups correspondent says she has decided it is not right to throw rice at a bridal party when things are so high.

A clear illustration of "the eternal fitness of things," is found in the account of the Missouri negro who discovered a fat 'possum in his sweet potato patch.

Clyde Perkins of Barnard, says: "The fat man's appetite isn't affected by the reflection that nobody loves him."

"A talking machine in every home," is the way a music house announces it. Most every home already has a "talking machine," and it don't need re-winding either. Ask any married man.

A Maryville minister says he has learned not to judge a man's religion by the way he sings: "O, think of a home over there," in church, but by the way he tries to make his home happy here.

The old fashioned man who carried a bone ear spoon in his pocket and used it in public was in the office today.

And speaking about things that once were and are not now, where is the old fashioned shirt that buttoned down the back?

DO YOU WEAR THE COLORS?

They Should Be Worn As An Emblem Not As A Dress Accessory.

Every patriotic woman ought to wear the red, white and blue as a sign of her patriotism. But she ought to wear the flag as an emblem and a badge and not as a dress adjunct.

Smartly dressed women everywhere have been among the first to adopt the custom of wearing a small gold enameled or ribbon flag on the coat lapel. Among women of official society in Washington there is hardly one woman who does not wear the ting flag.

So highly do they regard the use of the colors, in fact, that among women who know what is correct, it is even customary to wear the tiny flag when in the deepest mourning. And in Washington one frequently sees a woman in her first widow's weeds wearing the small flag on the lapel of her coat.

The small enameled pins are perhaps the neatest of these badges. If the tiny silk flags are used instead they should not be pierced by the pin that holds them in place. A tiny bit of silk should be attached to the jack end of the flag and this should be pierced with the pin.

The most popular badge of all is the tiny bow of red, white and blue ribbon, and as this is not the actual emblem there is no offense in trying it or in piercing it with a pin.—New York Evening Sun.

What Is A Ford?

Possibly you may own and operate a Ford—and still not know what it is—and again you may not own a Ford and not know what it is—but here is what a Ford is, according to the St. Joseph Observer:

It is a large iron and rubber contrivance for transforming gasoline into speed, luxury, excitement and obituaries. It consists of a handsome leather upholstered carriage body mounted on flat tired wheels and containing a gizzard full of machinery suffering from various ailments. It has run over 100 miles and ten thousand people. It can transport seven people from the front porch to the police station, the bankruptcy court or the golden gates in less time than any known method.

The Council of Defense of Putnam county has set the citizens hustling for a farm agent under the new federal war measure which makes $155,000 available for this work in Missouri. Putnam boosters are alive to the fact that the first counties to guarantee local expenses of county agents will be first and surest in getting the benefits of this measure.

WANTS GOOD ROADS

CREDIT FOR IMPROVED HIGHWAYS DUE TO MOTORISTS.

HE'S WILLING TO PAY

And Now Comes the Truck Operator Who is Going to Demand Better Roadways.

Good roads owe their existence in a great measure to the motorist. He complained of bad roads, refused to travel on them, told his friends of conditions and in general protested so strenuously that many communities for the sake of their reputation, were forced to build modern highways. They realized that the average motorist does not mind paying for service but insists on it. He is a good advertiser for a community, but to get his money and his praise you must give him good highways over which to ride.

If the motorist pleasure bent has been such a boom to the good roads movement, what is the truck operator going to be? With the latter it is all a matter of dollars and cents. The railroads today are swamped with business, both government and private. Naturally, the government comes first.

They are devoting every energy to the moving of troops and supplies to the various training camps throughout the country. In addition, they are hauling supplies to seaboard, where they are loaded for shipment abroad to the armies in the field, our own as well as the allies.

Manufacturers and jobbers have been appealed to to eliminate the use of railway equipment when tonnage can be handled by motor truck. A more general use of motor trucks for short-haul work is necessary if a satisfactory degree of efficiency is to be reached by the railroads in meeting added demands. Forty miles is considered an average haul for motor trucks, and where road conditions are suitable even greater distances are recommended.

A motor truck to the average individual may seem somewhat cumbersome and it is by nature of its work of rugged construction, but it will cover ground and do it efficiently with but one proviso. That is, it must have good roads to travel over. Fortunately most of our large cities are now connected by improved highways, but the feeders to these main arteries of travel still need attention.

Because the country is at war is no reason that road work should be abandoned. Good roads are as much a war measure as is the production of munitions. Foodstuffs and other necessities of life must be provided for all.

The railroads have been depended upon in the past to furnish the means of transporting it. They can no longer be relied upon with a degree of regularity. Goods will be delivered to central points and from there must be hauled overland.

Those sections with improved highways will naturally receive the most favorable consideration. Portions of the country that still lack good roads or provision to put them in shape should immediately take steps to see that this condition is changed. It is for the best interests of the residents that this be done.

One hundred thousand freight cars it is estimated, have been taken from their regular channels of trade and are now used in government service. As our army continues to grow it will be necessary to use motor trucks altogether for private hauling.

All Roads Must be Marked.

The State Highway Department, in calling attention to the various provisions of the new road laws, insists that section 65, page 464, Session Laws 1917, must be complied with by all road overseers in the state The section referred to is given herewith in full:

"Every road overseer shall erect, and maintain at every road fork or road crossing in his district that would likely mislead, a finger board containing a legible inscription directing the way and noting the distance to the most important place on the road, for which he may be allowed not to exceed one dollar, to be paid out of the road fund of the district."

GERMANS THOUGHT LONDON WIPED OUT.

Sharon, Pa., Oct. 2. — That the German soldiers are victims of the grossest sort of duplicity is the statement of Philip Fisher, a member of the American Red Cross Ambulance Corps in France. In a letter to friends here Fisher says that he has been present when German prisoners have been questioned. "They did not believe that the United States had any men in France," he says, "and they also thought that London had been obliterated by the Zeppelins."

RAILROADS KILL MUCH STOCK

In Missouri, Arkansas and Louisiana the Total Reaches 121,596 Head.

Special to The Democrat-Forum.

St. Louis, Oct. 2.—Railroads have struck and killed 121,596 head of livestock in the last five years in Missouri, Arkansas and Louisiana, according to a bulletin just issued by the Missouri Pacific railroad.

This is enough meat for an army of 1,500,000 men for one month, the bulletin points out. It urges farmers to keep their animals in fenced enclosures, town officers to pass ordinances prohibiting stock running at large, and railroad employes to keep a watchful eye.

Practical Gift for the Soldier.

One of the most desirable gifts which can be made to a member of one of our training camps is a small outfit of enameled ware and an alcohol lamp. The English soldiers found this out long ago and one of their first requirements is what they call a "Billy." This is a deep enameled pan or cup with a handle at the side and a cover. In this water can be heated, soup or coffee boiled and it is equally useful on the coals of a camp fire or over an alcohol flame. The enameled ware "Billy" will never rust and is easily kept clean. It also adds little to the weight of a marching kit.

Try Making Your Own Cough Remedy

You can save about $2, and have a better remedy than the ready-made kind. Easily done.

If you combined the curative properties of every known "ready-made" cough remedy, you would hardly have in them all the curative power that lies in this simple "home-made" cough syrup which takes only a few minutes to prepare.

Get from any druggist 2½ ounces of Pinex (60 cents worth), pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 65 cents and gives you a full pint of really better cough syrup than you could buy ready-made for $2.50. Tastes pleasant and never spoils.

This Pinex and sugar syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and heals the sore, irritated membranes that line the throat, chest and bronchial tubes, so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and for bronchitis, croup, whooping cough and bronchial asthma, there is nothing better.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, and has been used for generations to break up severe coughs.

To avoid disappointment, be sure to ask your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

CLOTHES AND SUCCESS.

Ill fitting clothes detract 10 per cent from a man's efficiency, according to Dr. George Van Ness Dearborn, professor of psychology at Harvard, who addressed a national gathering of clothing manufacturers and store owners in New York.

Dr Dearborn discussed the practical and hygienic value of well fitting clothes and then proceeded to give points to the students in efficient salesmanship.

"One can hardly estimate the benefits of being well dressed and properly fitted," Dr. Dearborn said. "The well dressed man spells success and inspires confidence. First impressions are most important, and many a man has got a place largely on account of the cut of his clothes. It goes without saying that the rich man should buy the best and attire himself with taste, but it even pays the poorer man to do the same, for an air of prosperity is contagious. Finally well fitting clothes add to one's self respect, inculcate personal cleanliness and aid the man in business.—New York Times.

The Surest Faith.

You tell me your faith was the faith of happiness. This is never the surest. Fortunately mine grew up under a dark sky, and the light has been increasing to this day. My passion for happiness spent itself in my youth in reveries. I never thought of realizing the vision on earth, and yet it has in a humble manner been realized. My faith in God, schooled by trial, looked to him first and almost exclusively for virtue, for deliverance from the great evil of sin, which I early felt to be the only true evil. The consciousness of unworthiness repressed all hopes of immediate happiness, gave me a profound conviction of the justice of my suffering, turned all my reproaches from Providence on myself and not only made me incapable of murmuring, but taught me gratitude for the discipline of life.—William Ellery Channing.

IT TAKES A MAN.

IT takes a man to stand alone,
A man whose heart is strong,
To do what he believes is right
And single handed make his fight
When thousands call him wrong.

It takes a man to turn aside
The popular applause,
To stand against the moving tide
Of multitudes when they deride
And not forsake his cause.

It takes a man content to be
Unpopular, uncheered,
To battle conscientiously
For right his fellows may not see
When hatred's head is reared.

Great deeds are seldom born of praise.
With smiles right is not won.
Unpopular are oft the ways
Of him who seeks the truth to raise
Until his work is done.

STOPPED ON WRONG TRACK

G. A. Fite Discovered His Error Just Before Engine Struck His Automobile.

G. A. Fite, who lives east of Maryville, started home yesterday about noon in his car and on reaching the railroad crossing at the end of First street found an engine switching cars ready to dispute the right of way. Being a cautious driver, Mr. Fite drove onto the side track and waited for the engine to pass on the main line. He set the brakes and prepared to wait, for the engine and cars were moving slowly. Presently Mr. Fite discovered that the engine was coming along the same track he had stopped on. It evidently did not occur to him to release the brakes and go ahead, but instead, he and Mrs. Fite, who was with him in the car, got out and abandoned it to its fate. The engine bumped the car and pushed it off the track. A wheel, the radiator and a fender were broken.

That snake stories of thirty-five years ago were not much different from those of the present is shown by this from the Thirty-five years Ago column in the Unionville Republican. The sons of Richard Childers, while working in the hay field, found twenty rattlesnakes, all of which they killed—and it wasn't a very good day for snakes either.

FAN'S OPINION OF SERIES

Maryville Man Who Saw Both Teams in Action Believes Sox Will Be Winners.

Now that the two teams representing the National and American leagues are to go to bat in the World's series games, naturally local baseball fans are wondering what the outcome of the series will be. Like baseball fans in every section of the country, if they only knew how the series would end, they would bet their heads off. But no one can tell. That is the greatest of sports, because it is played on the square. A Maryville man who saw both teams in action this season is of the opinion that the Sox will take the series, although it will likely take six games to do the trick. Probably two more evenly matched teams ever played in this big annual event than will be these two teams.

Comparing the outfields of the two teams and they are about equal. There are star outfielders on both teams. This is true with the infields on both teams. But here is where the Sox have the edge—they are stronger in the pitching department and in Schalk they have the greatest catcher in either league. That is what counts in a World's series. Having a heady catcher, who knows the game will do much to steady a team and it is this little man Schalk who has put a lot of "pep" in the Sox crowd this year. In pitchers the Sox have Eddie Cicotte, leading pitcher of the American league this season. With Cicotte will be Russell, Faber and Danforth all first string pitchers.

New York has Gibson and McCarty for receivers and they are good ones, but they are not in Schalk's class. Of their first string hurlers the Giants have Benton, perhaps the best hurler of the Giant flingers. Then there is Schupp, Perrett and Sallee, which makes quite a nifty crowd of pitchers. But Chicago has a wrecking gang of hitters in Collins, Jackson, Felsh, Schalk and others and hitting is going to win this series. This may be a bad guess—time alone will tell.

A WOMANLESS CITY

60,000 MEN AT CAMP FUNSTON MUST DARN OWN SOCKS.

BAR FEMALE VISITORS

But A Rest Room Will Be Built Outside Camp Where They May Go —Athletic Training.

Special to The Democrat-Forum.

Camp Funston, Kan., Oct. 1.—A city of 60,000 men without a single woman in it or near it. That's what Camp Funston will be.

Women won't be allowed in the camp even as visitors according to headquarters' plans. From darning socks to operating switchboards, everything will be done by men.

It is planned to build a rest room for the Y. W. C. A. just outside the regulation camp limits. Here women visitors may meet their soldier friends but they will not be allowed on the reservation.

It is the desire of Maj. Gen. Leonard Wood, in command of Camp Funston, national army cantonment, to have every man at the camp trained physically so that he will have the desire to meet the enemy in physical contest, according to a statement made by Dr. Paul Whithington, who recently outlined his plans for athletic training at the camp before the officers who will represent their respective units in athletic training. Dr. Whithington will have charge of athletics at Camp Funston.

"Nothing so strongly builds up confidence as athletic sports," said Dr. Whithington. "In October and November there will be football games for the men, both Rugby and soccer. In addition there will be cross country running and some baseball. Later there will be boxing, basketball, and wrestling.

STANBERRY COMES FRIDAY

M. H. S. Football Team Shows Up in Good Form — Believe They Will Redeem Defeats.

Season tickets for the football games to be played by the Maryville High school team went on sale today and the outlook for the season is a good one. The first game will be played on Friday against Stanberry, and remembering the two defeats of last year, the locals will be on their toes from the time the bell rings. The line-up for the game will be made from the following men; Center, McPherron and King; right guard, Lawson; right tackle, Lyle; right end, Egley and Fisher; left guard, French; left tackle, Auten; left end, Kemp and Miller; left half back, Masters, J. Price; right half back, Wray; fullback, Pierpoint and Pickens. Six of the above number played in games last year.

The first football game for the High school in twelve years was played last year with Stanberry on the latter's grounds. Maryville's men were new and inexperienced, and with the odds against them, were defeated. In the second game with Stanberry there was much improvement shown, although the score ended in Stanberry's favor. In practice the locals are showing up in good form and not a man in the squad but believes that Stanberry is in for a good trimming

THE GREAT DIVIDE.

The woman in the prime of life need not dread to meet the loss of her youth when growing elderly. While some charms diminish, others should replace them—charms of experience, cultivation, wisdom. The great physical changes met between the fortieth and fiftieth year are indeed serious, and are not always well borne. In the strain of modern life, few women are in condition to meet these changes without some apprehension of deranged health. But with the excellent help of Lydia E. Pinkham's Vegetable Compound, that old, trustworthy woman's medicine, a woman may confidently expect to enter later life as well and robust as ever.

More than 250 persons attended a joint picnic of farm clubs near Lathrop last week. Two clubs, the Clinton Center and Prairie Dell community clubs, both having been organized about one year, thus celebrated their first birthday. A farm product show, a picnic dinner, a program of talks and a day of rest and companionship, says the Optimist, made this a notable event.

Marriage Licenses.

The following have been issued marriage licenses: Ernest C. West and Miss Olive Belle Thompson, both of Hopkins.

Twenty-five rattlesnakes, all rolled and tangled together, were found under an old log north of Filmore last week by Hosea Burns and were quickly killed by him and his three sons.

Home Cookery

Meat Turnovers.

Chop the meat. If the quantity on hand is small mix with it leftover potato or rice. Season with salt, pepper, onion, etc. Place filling on circular pieces of biscuit dough about the size of a saucer. Fold over the dough and crimp edges together. Bake for about one-half hour in a hot oven. Serve with brown sauce.

Peanut Soup

Heat one pint of milk until lukewarm. Add two rounded tablespoonfuls of peanut butter mixed to a smooth paste with a little of the milk. Salt to taste. Thicken with one teaspoonful of butter or savory fat mixed with one tablespoonful of flour. Bring almost to the boiling point and serve.

Mock Duck.

On a round steak cut thin place a stuffing of breadcrumbs well seasoned with chopped onions, butter or other fat, salt, pepper and flavorings such as sage, celery seed, etc., if desired. Roll the steak around the stuffing and tie in several places with a string. If the steak is tough, steam or stew the roll until tender before roasting in the oven.

French Toast.

Beat up together one egg, one cupful of skim or whole milk and salt to taste. Place a small quantity of butter, bacon fat or other suitable fat in a broad bottom frying pan. Dip slices of stale bread into the egg and milk mixture until they are thoroughly moist and fry on both sides until a golden brown. Serve hot with or without sirup.

Cheese and Greens Roll.

Cook two quarts of spinach, Swiss chard or other greens. Drain and dress with one tablespoonful of butter. Chop and add one cupful of grated cheese and breadcrumbs enough to make a mixture sufficiently stiff to form into a roll. Place in an oblong pan and cook in a moderate oven for twenty minutes. When cold the mixture may be sliced in one-half inch pieces and served on lettuce leaves with salad dressing.

Meat and Breadcrumb Cakes.

To four parts of chopped or ground meat add one part soaked breadcrumbs, a small quantity of chopped onion and salt and pepper to taste. Mix and form into small round cakes. Brown the cakes in butter or other fat, turning them.

Save Simple Remedies For Sickness at Home

We are plunged into that horrible condition called war. Among the many hardships that the people will have to bear are those relating to the care of the sick at home, writes Dr. F. W. St. John in the Farm Journal. The army and navy will draw heavily upon the active members of the medical profession, as well as upon all medical and surgical supplies.

The price of medicines and dressings which are now abnormally high will continue to soar, and the doctor should be prepared, as far as possible, to care for those who are producing the means of warfare as well as the food and clothing.

I would suggest that during the season every one gather such simple remedies as boneset, wormwood, sage, catnip, etc., as they are all useful in the home. Save all the old linen that is not needed for others to be used in dressing wounds. Keep on hand a liberal supply of ground mustard, Epsom salts, castor oil, etc., as they will certainly be used in place of the more expensive preparations.

"As much satisfaction as there is" says the Hopkins Journal "in backing up to a door casing and scratching your back, it's too bad the practice is frowned on in polite society." Has the Journal ever tried a parlor currycomb—the long handled kind?

The Ravenwood Gazette wants to know what it is that makes you want to yell something at the fellow who is carrying a watermelon? Usually it is in expectancy that he will drop it.

Another meanest man has been found. A Barnard parent says he gives his boy but a penny at a time to encourage thrift, knowing he will have to save five before he can buy a movie ticket.

The champion woman food conserver lives at Pickering. The Pick-ups correspondent says she has decided it is not right to throw rice at a bridal party when things are so high.

A clear illustration of "the eternal fitness of things," is found in the account of the Missouri negro who discovered a fat 'possum in his sweet potato patch.

Clyde Perkins of Barnard, says: "The fat man's appetite isn't affected by the reflection that nobody loves him."

"A talking machine in every home," is the way a music house announces it. Most every home already has a "talking machine," and it don't need re-winding either. Ask any married man.

A Maryville minister says he has learned not to judge a man's religion by the way he sings: "O, think of a home over there," in church, but by the way he tries to make his home happy here.

The old fashioned man who carried a bone ear spoon in his pocket and used it in public was in the office today.

And speaking about things that once were and are not now, where is the old fashioned shirt that buttoned down the back?

DO YOU WEAR THE COLORS?

They Should Be Worn As An Emblem Not As A Dress Accessory.

Every patriotic woman ought to wear the red, white and blue as a sign of her patriotism. But she ought to wear the flag as an emblem and a badge and not as a dress adjunct.

Smartly dressed women everywhere have been among the first to adopt the custom of wearing a small gold enameled or ribbon flag on the coat lapel. Among women of official society in Washington there is hardly one woman who does not wear the ting flag.

So highly do they regard the use of the colors, in fact, that among women who know what is correct, it is even customary to wear the tiny flag when in the deepest mourning. And in Washington one frequently sees a woman in her first widow's weeds wearing the small flag on the lapel of her coat.

The small enameled pins are perhaps the neatest of these badges. If the tiny silk flags are used instead they should not be pierced by the pin that holds them in place. A tiny bit of silk should be attached to the jack end of the flag and this should be pierced with the pin.

The most popular badge of all is the tiny bow of red, white and blue ribbon, and as this is not the actual emblem there is no offense in trying it or in piercing it with a pin.—New York Evening Sun.

What Is A Ford?

Possibly you may own and operate a Ford—and still not know what it is—and again you may not own a Ford and not know what it is—but here is what a Ford is, according to the St. Joseph Observer:

It is a large iron and rubber contrivance for transforming gasoline into speed, luxury, excitement and obituaries. It consists of a handsome leather upholstered carriage body mounted on flat tired wheels and containing a gizzard full of machinery suffering from various ailments. It has run over 100 miles and ten thousand people. It can transport seven people from the front porch to the police station, the bankruptcy court or the golden gates in less time than any known method.

The Council of Defense of Putnam county has set the citizens hustling for a farm agent under the new federal war measure which makes $155,000 available for this work in Missouri. Putnam boosters are alive to the fact that the first counties to guarantee local expenses of county agents will be first and surest in getting the benefits of this measure.

WANTS GOOD ROADS

CREDIT FOR IMPROVED HIGHWAYS DUE TO MOTORISTS.

HE'S WILLING TO PAY

And Now Comes the Truck Operator Who is Going to Demand Better Roadways.

Good roads owe their existence in a great measure to the motorist. He complained of bad roads, refused to travel on them, told his friends of conditions and in general protested so strenuously that many communities for the sake of their reputation, were forced to build modern highways. They realized that the average motorist does not mind paying for service but insists on it. He is a good advertiser for a community, but to get his money and his praise you must give him good highways over which to ride.

If the motorist pleasure bent has been such a boom to the good roads movement, what is the truck operator going to be? With the latter it is all a matter of dollars and cents. The railroads today are swamped with business, both government and private. Naturally, the government comes first.

They are devoting every energy to the moving of troops and supplies to the various training camps throughout the country. In addition, they are hauling supplies to seaboard, where they are loaded for shipment abroad to the armies in the field, our own as well as the allies.

Manufacturers and jobbers have been appealed to to eliminate the use of railway equipment when tonnage can be handled by motor truck. A more general use of motor trucks for short-haul work is necessary if a satisfactory degree of efficiency is to be reached by the railroads in meeting added demands. Forty miles is considered an average haul for motor trucks, and where road conditions are suitable even greater distances are recommended.

A motor truck to the average individual may seem somewhat cumbersome and it is by nature of its work of rugged construction, but it will cover ground and do it efficiently with but one proviso. That is, it must have good roads to travel over. Fortunately most of our large cities are now connected by improved highways, but the feeders to these main arteries of travel still need attention.

Because the country is at war is no reason that road work should be abandoned. Good roads are as much a war measure as is the production of munitions. Foodstuffs and other necessities of life must be provided for all.

The railroads have been depended upon in the past to furnish the means of transporting it. They can no longer be relied upon with a degree of regularity. Goods will be delivered to central points and from there must be hauled overland.

Those sections with improved highways will naturally receive the most favorable consideration. Portions of the country that still lack good roads or provision to put them in shape should immediately take steps to see that this condition is changed. It is for the best interests of the residents that this be done.

One hundred thousand freight cars it is estimated, have been taken from their regular channels of trade and are now used in government service. As our army continues to grow it will be necessary to use motor trucks altogether for private hauling.

All Roads Must be Marked.

The State Highway Department, in calling attention to the various provisions of the new road laws, insists that section 65, page 464, Session Laws 1917, must be complied with by all road overseers in the state The section referred to is given herewith in full:

"Every road overseer shall erect, and maintain at every road fork or road crossing in his district that would likely mislead, a finger board containing a legible inscription directing the way and noting the distance to the most important place on the road, for which he may be allowed not to exceed one dollar, to be paid out of the road fund of the district."

GERMANS THOUGHT LONDON WIPED OUT.

Sharon, Pa., Oct. 2. — That the German soldiers are victims of the grossest sort of duplicity is the statement of Philip Fisher, a member of the American Red Cross Ambulance Corps in France. In a letter to friends here Fisher says that he has been present when German prisoners have been questioned. "They did not believe that the United States had any men in France," he says, "and they also thought that London had been obliterated by the Zeppelins."

RAILROADS KILL MUCH STOCK

In Missouri, Arkansas and Louisiana the Total Reaches 121,596 Head.

Special to The Democrat-Forum.

St. Louis, Oct. 2.—Railroads have struck and killed 121,596 head of livestock in the last five years in Missouri, Arkansas and Louisiana, according to a bulletin just issued by the Missouri Pacific railroad.

This is enough meat for an army of 1,500,000 men for one month, the bulletin points out. It urges farmers to keep their animals in fenced enclosures, town officers to pass ordinances prohibiting stock running at large, and railroad employes to keep a watchful eye.

Practical Gift for the Soldier.

One of the most desirable gifts which can be made to a member of one of our training camps is a small outfit of enameled ware and an alcohol lamp. The English soldiers found this out long ago and one of their first requirements is what they call a "Billy." This is a deep enameled pan or cup with a handle at the side and a cover. In this water can be heated, soup or coffee boiled and it is equally useful on the coals of a camp fire or over an alcohol flame. The enameled ware "Billy" will never rust and is easily kept clean. It also adds little to the weight of a marching kit.

Try Making Your Own Cough Remedy

You can save about $2, and have a better remedy than the ready-made kind. Easily done.

If you combined the curative properties of every known "ready-made" cough remedy, you would hardly have in them all the curative power that lies in this simple "home-made" cough syrup which takes only a few minutes to prepare.

Get from any druggist 2½ ounces of Pinex (60 cents worth), pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 65 cents and gives you a full pint of really better cough syrup than you could buy ready-made for $2.50. Tastes pleasant and never spoils.

This Pinex and sugar syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and heals the sore, irritated membranes that line the throat, chest and bronchial tubes, so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and for bronchitis, croup, whooping cough and bronchial asthma, there is nothing better.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, and has been used for generations to break up severe coughs.

To avoid disappointment, be sure to ask your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

Dinner for Newlyweds.

CLOTHES AND SUCCESS.

Ill fitting clothes detract 10 per cent from a man's efficiency, according to Dr. George Van Ness Dearborn, professor of psychology at Harvard, who addressed a national gathering of clothing manufacturers and store owners in New York.

Dr Dearborn discussed the practical and hygienic value of well fitting clothes and then proceeded to give points to the students in efficient salesmanship.

"One can hardly estimate the benefits of being well dressed and properly fitted," Dr. Dearborn said. "The well dressed man spells success and inspires confidence. First impressions are most important, and many a man has got a place largely on account of the cut of his clothes. It goes without saying that the rich man should buy the best and attire himself with taste, but it even pays the poorer man to do the same, for an air of prosperity is contagious. Finally well fitting clothes add to one's self respect, inculcate personal cleanliness and aid the man in business.—New York Times.

The Surest Faith.

You tell me your faith was the faith of happiness. This is never the surest. Fortunately mine grew up under a dark sky, and the light has been increasing to this day. My passion for happiness spent itself in my youth in reveries. I never thought of realizing the vision on earth, and yet it has in a humble manner been realized. My faith in God, schooled by trial, looked to him first and almost exclusively for virtue, for deliverance from the great evil of sin, which I early felt to be the only true evil. The consciousness of unworthiness repressed all hopes of immediate happiness, gave me a profound conviction of the justice of my suffering, turned all my reproaches from Providence on myself and not only made me incapable of murmuring, but taught me gratitude for the discipline of life.—William Ellery Channing.

IT TAKES A MAN.

IT takes a man to stand alone,
A man whose heart is strong,
To do what he believes is right
And single handed make his fight
When thousands call him wrong.

It takes a man to turn aside
The popular applause,
To stand against the moving tide
Of multitudes when they deride
And not forsake his cause.

It takes a man content to be
Unpopular, uncheered,
To battle conscientiously
For right his fellows may not see
When hatred's head is reared.

Great deeds are seldom born of praise.
With smiles right is not won.
Unpopular are oft the ways
Of him who seeks the truth to raise
Until his work is done.

STOPPED ON WRONG TRACK

G. A. Fite Discovered His Error Just Before Engine Struck His Automobile.

G. A. Fite, who lives east of Maryville, started home yesterday about noon in his car and on reaching the railroad crossing at the end of First street found an engine switching cars ready to dispute the right of way. Being a cautious driver, Mr. Fite drove onto the side track and waited for the engine to pass on the main line. He set the brakes and prepared to wait, for the engine and cars were moving slowly. Presently Mr. Fite discovered that the engine was coming along the same track he had stopped on. It evidently did not occur to him to release the brakes and go ahead, but instead, he and Mrs. Fite, who was with him in the car, got out and abandoned it to its fate. The engine bumped the car and pushed it off the track. A wheel, the radiator and a fender were broken.

That snake stories of thirty-five years ago were not much different from those of the present is shown by this from the Thirty-five years Ago column in the Unionville Republican. The sons of Richard Childers, while working in the hay field, found twenty rattlesnakes, all of which they killed—and it wasn't a very good day for snakes either.

Has Moved His Office.

Charles E. Stilwell who had an office over the Holmes Jewelry store has moved to the Michau building to the office formerly occupied by Dr. E. C. Braniger.

Mr. and Mrs. Will Hammond and son and daughter of Skidmore were in Maryville on business yesterday.

HE SAW HIM KILLED

(Continued from Page 1.)

bomb which fell about thirty yards from my tent but failed to "go off," then the two went off very close together on the other side of us and killed the surgeon. Thus, they had passed directly over us and dropped bombs on our boundary on each side. These bombs were about one hundred yards apart so we just did get by. This all happened on a moonlight night and though I heard the hum of the machines over us I could not see them. It is impossible to believe our location was mistaken for anything other than hospital grounds.

It is probable that none of us would have been hurt if we had had any reason to expect it. As it is now we are probably reasonably safe and I think there is no reason to worry to any extent about the future welfare of our unit. I think all this will pass censoring, as I have given out nothing which has not been published in British newspapers.

The weather is fine and I have never felt better than now with the exception that we have frequent colds here. Have been getting in a little tennis lately. I have a very good friend (Englishman) in the hospital where I was stationed in England who has been very good in cleaning up things for me there and in forwarding my mail. I was just reading your letter "Dad" asking for photographs and identification tags, etc., when the lights went out and bombing started. It happened to be a very appropriate reception for the letter.

I have been much pleased with the way the American and British nurses went through the bombing without losing their poise. It sounds much easier than it really is, and I think they should be commended very highly for "carrying on as usual" without being disturbed.

I must close now. Bloomer and I are going out for a walk shortly. Will write more later. Don't allow the above "hot air" to worry you. It isn't going to worry me, except that it makes me anxious to get at them and give them a taste of their own "hate."

Write when you can.

Your affectionate son and brother,

Wm. M. Findley,
Lt., R. A. M. C.

P. S.—Will send photo of myself some of these days.

FIRE INSURANCE RATES UP

New Standardized-Term Rule Treats Alike All Risks For Longer Term Than Year.

Jefferson City, Oct. 2.—Fire insurance rates in Missouri were generally increased today with the adoption of the new standardized-term which treats alike all classes of risks for a longer term than one year.

The rates of some classes of insurance will be decreased under the ruling but no policy now in force will be affected under the adoption of the new ruling, according to State Superintendent of Insurance Walter Chorn.

Some of the most important changes in rates follows:

A slight reduction in the annual rates of practically all dwellings. An increase on dwelling and flats on business written for a longer term than one year. Decrease of 15 per cent from annual rate on brick mercantile buildings without contents.

Increase of 10 per cent on frame mercantile buildings and contents. Increase of 20 to 25 per cent on uninspected localities.

We Respect That Which Costs Us Money—

AND and we are likely to despise that which comes to us free—without cost of time, effort or money on our part. Apply this to the circulation of a newspaper and you have an answer to the whole subject of resultful advertising.

Suppose a merchant stopped you on the street, invited you into his store and gave you a suit of clothes free.

You would think one of three things: That the merchant was crazy: that the suit was no good; or that he figured on getting you into the store at some future time to sell you something upon which he could make up for the free suit.

The publication that is thrown into the front yards and on the doorsteps of residences with no obligation to pay on the part of the person receiving it, arouses much the feeling as the free suit mentioned above.

In short, we respect that which costs us time, money or effort, and we despise that which comes to us with no obligation on our part.

Advertising in a publication that people pay for year after year has value because it carries all the respect and confidence the publication inspires.

Advertising in a publication that is indiscriminately distributed in the city or country, has less value than plain circulars because persons accept a circular for what it is.

Advertising in a publication that has more than 3,000 subscribers who pay for it year after year is worth ten times—yes twenty times as much as advertising in a publication of five times the circulation, that is not PAID CIRCULATION.
